AI Virtual Assistant

specialized in project management

Self-organized teams and agile organizations

DISRUPTIVE CHANGE

About Lili

We believe that AI will **unlock the next level of human ambition**, the same way that informatics has enabled humans to go on the moon.

Right now, project teams are under huge pressure to keep up with the massive amount of ever-changing information required for an effective synchronization of teams. **Failure to keep pace with data puts at risk millions / billions dollars investments** and the **long-term competitiveness of any companies**.

Targeted industry: construction / engineering, pharmaceutical, business services consulting, information technology, movies, and virtually any industry that require large teams to coordinate.

Our solution enables our clients to **capture networked data for compliance** purpose and in the long run to enable **predictive intelligence to help coordinate teams and secure projects delivery**.

Why artificial Intelligence?

- ✓ Keep up with data obesity
- ✓ Monitoring a project portfolio in its globality
- ✓ Detecting weak signals of delay and risk
- ✓ Capitalizing and reusing project knowledge

Our clients include: Total, EDF, Thalès, MBDA, Vinci

Our prize: 100 French AI personalities, CogX AI London 2017, IBM AI X-PRIZE (among the 2 last French contestants)

Scientific partnership with Ecole Polytechnique

Our AI algorithms, are in development in collaboration with the École Polytechnnique (X) and the Centre national de la recherche scientifique (CNRS), the largest governmental research organization in France.
